

NILAN BEIGI

Business, Data & Financial Analyst | AI Analyst | Full-Stack Developer

Burnaby / Vancouver, BC • 236-999-7585 • nilan.beigi.beigi@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

AI-focused Business Information Technology graduate (BCIT, May 2026) combining SQL/Python data analysis, Power BI reporting, financial reconciliation, and full-stack development to build tools that reduce manual effort and surface actionable business insight. Delivered a reinforcement-learning system that automated ticket routing and a full-stack digital ordering platform for retail operations. Seeking Business Analyst, Data Analyst, Financial Analyst, or AI Analyst roles in Vancouver where technical execution meets measurable business outcomes.

TECHNICAL SKILLS

Data & Analytics: SQL, Power BI, DAX, Microsoft Excel (Advanced), Microsoft Access, Data Modeling, KPI Reporting, Requirements Gathering

Finance & Reporting: Billing & Invoicing, Cost Tracking, Financial Reconciliation, Sales-Data Reporting, Decision Support Systems

Programming: Python, HTML, CSS, JavaScript (basic)

AI & Machine Learning: Machine Learning Fundamentals, Reinforcement Learning, Prompt Engineering, LLM Integration, Adaptive Systems

Cloud & Automation: Microsoft Azure (Fundamentals), n8n, GitHub, Streamlit

Business Analysis: Process Mapping, Stakeholder Communication, Dashboard Design, Workflow Optimization

WORK EXPERIENCE

Junior Software Developer (Part-time) — Progressive Telecom

Burnaby, BC | Jan 2026 – May 2026

- Wrote basic SQL queries and used Python to help clean and organize company data into simple reporting files.
- Assisted with invoicing and cost tracking, entering and checking figures in Excel for accuracy.

Assistant Manager — Persia Foods

Burnaby, BC | Sep 2022 – May 2026

- Managed daily operations for a high-volume retail location — staff scheduling, inventory cycles, and sales-data reporting that informs ownership's inventory and operational decisions.
- Designed and built the company's full-stack digital ordering platform (Next.js, SQL) featuring a loyalty-points engine, role-based dashboards, and a bilingual AI chatbot, now in active use across the chain.

Social Media & Content Coordinator (Part-time) — Dynamic-sat Company

Montreal, QC | Oct 2022 – Dec 2022

- Produced multi-platform content, analyzed engagement metrics, and streamlined workflows using Canva and AI-assisted tools.

KEY PROJECTS

AI Ticket Routing System (Reinforcement Learning)

Jan 2026 – Mar 2026

- Built an adaptive RL system that routes incoming tickets to optimal agents in high-volume environments, modeling real-world SOC/ITSM operations.
- Improved SLA response times by automating ticket reassignment; built a real-time dashboard tracking model learning curves and routing accuracy.

Senior Services Directory — BCIT Capstone (BSYS-4905)

Jan 2025 – May 2026

- Led full-stack development of a Streamlit senior-services directory for a nonprofit client as part of a 4-person team reporting to stakeholders and a faculty advisor.
- Implemented AI intent-matching and voice search so seniors and caregivers can find services in plain language, replacing rigid menu navigation.
- Ran weekly stakeholder reviews, translating feedback into data redesigns, UI improvements, and prioritized release scope.

Homigo Housing Platform

Sep 2025 – Dec 2025

- Built a full-stack housing platform (ASP.NET Core) with structured search, listing management, and role-based access for renters and property managers.
- Improved search efficiency and UX by 30% through query optimization and iteration; engineered a scalable architecture supporting concurrent sessions and dynamic listings.

EDUCATION & CERTIFICATIONS

Business Information Technology Management — AI Specialization

Sep 2024 – May 2026

British Columbia Institute of Technology (BCIT), Burnaby, BC

Certifications: Microsoft 365 Copilot Prompting Essentials (Microsoft, Mar 2026) • Google AI for Business Applications (Google, Mar 2026)
